

Avigation Notification (2007) – California City

Avigation Notification

The Air Force Flight Test Center (AFFTC) at Edwards AFB is currently, has in the past, and intends in the future to engage in flight testing throughout the R-2508 Restricted Airspace Complex and is authorized under federal law to engage in flight testing, including low level flight testing, throughout such airspace. Project Proponent acknowledges the value of the Air Force's aircraft test and evaluation program to the United States national defense and the Air Force has acknowledged Developer value in the private sector. Proponent is hereby notified that the Air Force has the right to make necessary or reasonable required low and/or frequent flights over or near said site and above said surface and, in doing so, to generate noise, light, electromagnetic emissions, radio transmissions, vibrations, fumes, particles, sonic booms, and other effects incident to military aviation, whether or not while directly over the site, which might affect the free use and enjoyment of the property. Nothing in this paragraph will negate the requirement for compliance by the Air Force with the current applicable rules and regulations promulgated by the Federal Aviation Administration for civil and military aircraft flights over residential developments.
